Subject: RE: Tele-conference on PNNL responses to comments

Ok with me except for the morning of May 3rd. Two questions, will USGS be ready by then and do we need PNNL to participate (I really don't know what you have in mind and what the problems are with the responses)?

Please note the BUDGET for this project is EXHAUSTED. We need to finalize this report as promptly and efficiently as possible.

Jamie

Subject: Tele-conference on PNNL responses to comments

Hi folks,
I believe we need to discuss responses to comments on the PNNL Cr study report. I proposed a call about a week and a half ago and offered to set up a call. Please let me know which day and time work best for you. I propose the 1st, 2nd or 3rd of May. As usual, I recognize that these proposed dates will not work for everyone.
Cheers!
Jay
